

# STATIC CONVERTER

**AST** Gruppe  
Leistungselektronik

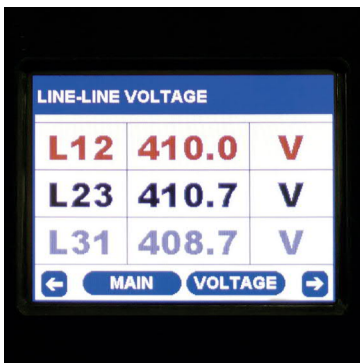

## A.S.T. BENEFITS

**SINUSOIDAL OUTPUT  
VOLTAGE**

**INTEGRATED EMC FILTER**

**HIGH EFFICIENCY**

**The modular static converters from A.S.T. Leistungselektronik are designed specifically for each project so that they are tailored to the application.**

The output voltage and output frequency can be adjusted separately as required. Moreover, low wear and low noise development are highly valued features.

**Yes, we do.**
